

ARL Laboratory Science Review Stakeholder Session Questionnaire

Questions for Written Response Prior to NOAA Air Resources
Laboratory (ARL) Review

Name
Organization

1. Please provide a short summary (a paragraph) of your research, your position, your organization, and your connections with ARL.
2. Please describe the ARL research and information products you use and how they contribute to your work and the mission of your organization.
3. Please summarize why, in your opinion, ARL's research and information products are important. Is ARL making a difference? How useful is ARL's information to you the stakeholder? How is it being used by other stakeholders? How effective is it in supporting management or policy formulation related to environmental issues? Does it benefit the public?
4. What is your assessment of the quality of ARL's work? Based on your knowledge of ARL, do you think that appropriate approaches are in place to ensure that high quality work will be performed in the future?
5. What is your assessment of the effectiveness with which ARL incorporates the needs of stakeholders in its work? How effective is ARL's communication of research and information products to stakeholders?
6. What new research or information products from ARL would be useful in your opinion? Does ARL need to improve upon its research communications with stakeholders? If yes, what should be done?

Please send completed questionnaire to mary.anne.whitcomb@noaa.gov
